Here you will find the [menu](#) of **Le Porte Rosse** in [Emerald](#). At the moment, there are **40** meals and drinks on the menu. The restaurant offers a nice outdoor dining option and generous portions, with friendly service provided by a staff who went above and beyond. However, the food itself received mixed reviews. While some enjoyed the variety of dishes, others found the pasta bland and low quality, as well as certain items overpriced and disappointing. Despite the food inconsistencies, the restaurant remains a popular choice for many visitors, with particular praise for the handmade gnocchi and duck linguini. The two-for-one deal on Monday nights was also highlighted as a good value, providing customers with tasty options at a reasonable price. Overall, while the restaurant may have room for improvement in terms of food quality and consistency, it continues to attract a loyal customer base with its authentic Italian cuisine.
